

**CVX**

**Vertical multistage electric pumps**

The new range of vertical multistage pumps CVX series in stainless steel features suction and delivery in line and high energy efficiency motors (IE2 / IE3 Motors).

The competitive qualities of the product combined with the high quality and reliability that characterize Caprari's entire range are the more evident values of the new CVX series.

Machines conform to 2009/125/EC Directive (EcoDesign - ErP).
